

NW Automotive Trades Assn.

Supplemental Oregon Group 7% Discount Plan

Discount effective for qualified policy renewal after 7/1/09

SAIF Corporation's Oregon Group Discount

gives qualifying businesses the opportunity to further reduce workers' compensation insurance costs by earning a supplemental premium discount in addition to a premium volume discount. The additional discount rewards businesses belonging to the Northwest Automotive Trades Association that meet group underwriting eligibility guidelines.

Plan Features:

- The discount will be applied to each billing statement or payroll report beginning at policy inception after you are enrolled in the group plan.
- Enrolling in the plan does not alter your individual earned experience rating or change your policy renewal date. You also retain any rate advantage you have earned based on your individual record.
- The group's eligibility for a supplemental discount is reviewed annually and is based on the premium and loss history of all group members over three completed policy periods prior to the current year. The group's discount percentage is subject to change each July 1, but your individual group discount is guaranteed for your full policy year.

Eligibility:

- To be eligible for the plan, members must be insured with SAIF, meet underwriting standards established for the plan, and be a member in good standing of an association endorsing a SAIF Corporation Group Insurance Plan.

How to Enroll:

If you are insured by SAIF Corporation, contact your SAIF representative or NATA can easily become your broker and enroll you in the discounted group if you are not direct with SAIF.

If you are insured by another carrier:

- Obtain a premium and loss report for the last five completed policy years from your agent or current carrier.
- Contact your local SAIF Corporation office or independent insurance agent.
